Muhammad Usama

SQA Engineer · ERP Testing & Automation

Lahore, Pakistan hmusama2018@gmail.com hmusama.vercel.app linkedin.com/in/hmusama
github.com/hmusamaofficial

PROFESSIONAL SUMMARY

SQA engineer focused on ERP software quality and practical automation with Playwright, Python, and pytest. Bringing the analytical discipline of chemistry to software testing, clear defect reporting, and repeatable business workflows.

EXPERIENCE

SQA / QA Engineer · Texinnova June 2025 – Present

Lahore, Pakistan · Joined June 7, 2025

- Test ERP business workflows across inventory, finance, sales, purchasing, and HR, with attention to cross-module behavior and permissions.
- Develop and maintain automated checks using Playwright, Python, pytest, and related tooling alongside exploratory and regression testing.
- Document reproducible defects, investigate unexpected behavior, and collaborate with engineers to validate fixes.
- Work with Git, GitHub, Docker, VS Code, and Ubuntu/Linux in the development and testing workflow.

TECHNICAL SKILLS

Automation: Playwright, Python, pytest, browser automation

Quality assurance: ERP workflows, exploratory and regression testing, test case design, defect reporting, permissions and integration checks

Tools: Git, GitHub, Docker, VS Code, Ubuntu/Linux, Postman, SQL fundamentals
